

# Sandy Plains

Hubert C. Crowell

Violin

High and dry you divide, wat - ters flow to ether side.  
Where is your sand and what hap - pen to your plains?

3  
Indian trails once marked your ridge, now cars on icy roads slide.  
Was it so much dif - ferent then when you got your name?

6  
Indian signs along the way, now hide in bank parking lots.  
From Marietta to Mountain Park few hills we need to climb,

9  
Your villages are all gone, replaced by strip malls and cemetery plots.  
it would be great to be able to travel back in time.
